

CEYLON PETROLEUM STORAGE TERMINALS LIMITED

VACANCY

Ceylon Petroleum Storage Terminals Limited (CPSTL) invites applications from suitably qualified and experienced candidates to join the project team responsible for contract administration of major projects at the Kolonnawa Installation.

POST OF **MECHANICAL ENGINEER, GRADE A-5** (ON CONTRACT BASIS)

Qualifications required

- Bachelor of Science (BSc) degree in Mechanical Engineering from a recognized university in Sri Lanka.
- Associate Membership of the Institution of Engineers, Sri Lanka (IESL) and registration with the Engineering Council of Sri Lanka (ECSL).
- Minimum of three (03) years of experience as a Project or Site Mechanical Engineer.
- Relevant experience in petroleum terminals, tank farms, associated piping systems, or similar projects executed within operational facilities will be an added advantage.
- Strong working knowledge of international design and construction codes including, API 650, (Welded tanks for oil storage), ASME Section IX (Welding and brazing qualifications) and ASME Section V (Non-destructive examination).
- Proficiency in reviewing and approving Welding Procedure Specifications (WPS), Procedure Qualification Records (PQR), Welder Performance Qualifications (WPQ), and material test certificates (MTCs).
- Ability to read, interpret, and review engineering drawings and deliverables, including Process & Instrumentation Diagrams (P&IDs), General Arrangement (GA) drawings, piping isometrics, tanks fabrication/erection drawings, method statements, and technical specifications.
- Strong site coordination skills, including effective coordination with HSE and other relevant disciplines.

Duties & Responsibilities

- Assist the Project Manager and Lead Project Engineer in overall technical management, site supervision, quality surveillance, and inspection of contractor mechanical packages.
- Leading the technical coordination, supervision and inspection of mechanical works for petroleum storage terminal facilities, tanks farms, and associated.
- Reviewing review contractor technical deliverables including P&IDs, plant layouts, GA drawings, tank stop/erection drawings, piping isometrics, construction method statements, and technical specifications for design integrity and code compliance.

- Providing immediate technical guidance on site queries, Requests for Information (RFIs), engineering change requests, variations, and Non-Conformance Reports (NCRs).
- Coordinating with Civil, Electrical, Instrumentation, Fire Protection, and HSE teams to resolve physical / spatial interfaces, sequence work efficiently and enforce site safety protocols.
- Monitor the mechanical completion progress, generate and drive punch-list items to resolution and review as-built drawings, test dossiers, and mechanical completion packages.
- Tracking the contractor progress, resource deployment, and quality metrics, providing routine technical inputs for daily/weekly/monthly project management reports.

➤ **Possessing Project related qualifications/experience would be a definite advantage.**

Salary scale : Rs.198,625/- + Rs. 5,250/- + (Variable Allowances)

Service Conditions

- The appointment will be on a contract basis for a period of twenty-two (22) months for the 6-Tanks Project at the Kolonnawa Installation, subject to renewal based on project requirements and satisfactory performance.
- Maximum age limit for the above posts is 65 years as at the closing date of application.

The Company will contribute 15% of the salary towards the EPF whilst the employee will have to contribute 10% for the same. The Company will also contribute 3% of the salary towards the ETF. Selected candidate will be placed on probation for a period of three years from the date of assumption of duties.

Qualified applicants who wish to apply for this post are requested to furnish their details in the Microsoft Form herein <https://forms.cloud.microsoft/r/fnWiT1U23M> and submit to reach us on or before 22.09.2026.

- The required qualifications must be fulfilled by the closing date of the application and he/she should be able to produce the relevant certificates when requested.
- CPSTL has the right to call only the shortlisted candidates based on the relevancy of the educational qualifications, experience or any other suitable criteria.
- If required, a selection test would be held to further filter the number of candidates.
- Applications with inaccurate or incomprehensive information will be rejected.
