POST OF TECHNICIAN - GROUND SUPPORT EQUIPMENT

Job Scope : To ensure the Optimal performance, safety and availability of all Ground Support Equipment (GSE) routine maintenance, inspections, and servicing. The Technician – Ground Support Equipment is responsible for executing day-to-day maintenance tasks, preparing equipment – specific maintenance schedules, and coordinating closely with the Ground Operations team to support seamless ground operations. This role acts as the primary point of contact for all GSE maintenance matters.

Key

Responsibilities :

- I Perform daily maintenance checks and serviceability assessments of all ground support equipment.
- II Develop and implement preventive maintenance schedules based on manufacture guideline and operational requirements.
- III Carry out timely repairs and corrective maintenance to ensure minimal equipment downtime.
- IV Monitor the operational status and performance of the GSE fleet and take prompt action on any deficiencies.
- V Coordinate with Ground Operations Superintendent (Ramp) and the Ground Operations Manager to report equipment status, requirements, and updates.
- VI Maintain accurate records of maintenance activities, inspections and parts usage.
- VII Ensure compliance with safety standard and operational procedures during all maintenance work.
- VIII Manage the maintenance of the entire GSE fleet across both CIAR and JIA Airports.
- XI Serve as the main technical contact for all ground support equipment, ensuring availability and readiness in support of daily operations.
- X Ensure that the execution of all assigned job tasks are performed in a manner which safeguards organizational information assets and maintain compliance with the AASL standard and procedures.
- XI In addition to the above key responsibilities of the Ground Support Equipment Operator, responsible to attend any other relevant responsibilities assign by supervisory officers.
