Vacancy for Technical Assistant in Detecting *Brugia malayi* in Vector and Non-vector Mosquitoes

We are seeking enthusiastic and skilled personnel with experience in handling mosquitoes and entomology-related work to join our research team.

Position: Technical Assistant (Full-time/Part-time)

Key Responsibilities:

- Conducting fieldwork, including mosquito collection, identification, and species analysis.
- Supporting laboratory experiments related to mosquito control research.
- Recording and analyzing experimental data.

Qualifications and Experience:

- Prior experience in entomology-related work, specifically mosquito handling.
- Strong interest in both field and laboratory research work.

How to Apply:

Interested applicants are requested to submit their CV and cover letter to the following email address: awijegun@tec.rjt.ac.lk.

- The shortlisted and selected candidates will be informed of an online interview scheduled to be held on 27/02/2025 from 9.00 am onwards.
