Job Description

Purpose:

To provide in-house skilled maintenance support in assisting the Civil Engineer to ensure all water treatment systems are maintained in proper working condition

Key responsibilities:

- Conduct regular physical inspections to ensure smooth and uninterrupted water supply to all buildings, aircraft, gardens, and service facilities.
- Perform water treatment processes in accordance with established specifications and guidelines to meet required treated water standards.
- Carry out preventive and corrective maintenance of all water treatment plants and pumps to ensure optimal functionality.
- Maintain accurate log reports and follow up on tasks under the instructions of the Foreman to ensure timely rectification of defects.
- Monitor the conventional water treatment process to ensure the supply of quality water, including performing basic tests for physical parameters such as turbidity and pH correction.
- Act on behalf of the Foreman in his absence and provide necessary technical guidance and information to subordinates.

Requirements

- 6 passes at GCE (O/L) including a pass for Maths & English with successful completion of one year full time technical course (NVQ level 4) in relevant field (Plumbing) with 4 years relevant working experience.

Note: Trainee and internship experience will not be considered as work experience.

Age to be not more than 35 years as at 02nd November 2025 which is the closing date.

Be a SriLankan Citizen.

Employment will be offered on fixed term contract.

Influencing will be a reflection of unsuitability.

We are an equal opportunity organization.

Please note that we will correspond with you within a month of the closing date of the advertisement in the event your application is shortlisted for consideration.
